(2) The Regional Transport Authority granting a stage carriage permit under sub-rule (1) shall, before granting the permit obtain the concurrence of the Regional Transport Authority or Regional Transport Authorities of the other region or regions concerned.

(3) The provisions of sub-rule (2) shall apply also in the case of variation of the conditions of a stage carriage permit either by the inclusion of a new route or routes or a new area in any other region or regions, or the exclusion of any such route or routes or area.

**172. Renewal of permits,-** (1) Every application for the renewal of a permit shall be made to the Transport Authority which issued the permit.

(2) Application for renewal of permit shall be in Form "PRA" and shall be accompanied by the permit where the motor vehicle is subject to a hire purchase, lease or hypothecation agreement, the certificate or communication, or as the case may be, the declaration referred to in sub-section (8) of Section 51 of the Act.

(3) Production of permit.-  
(a) The Transport Authority sanctioning an application for renewal or a permit shall call upon the permit holder to produce the Registration Certificate of the vehicle and endorse the renewal in the permit and return them to the holder. The Transport Authority may revoke its sanction of the application for renewal if the permit holder fails to produce the documents aforesaid within one month from the date of despatch of the order requiring the production of the records:

Provided that the Transport Authority may, if satisfied on an application made to it in writing by the permit holder within the period of one month aforesaid that there are sufficient grounds, grant an extension or extensions of time not exceeding four months in the aggregate for the production of the records.

(b) The Transport Authority may delegate the powers conferred on it by clause (a) to its Secretary in cases where the Secretary has sanctioned the application for renewal of the permit

**173. Defects in renewal application.**- (1) The State or Regional Transport Authority shall not reject an application for the renewal of a permit solely on any or all of the following grounds:-

- (a) that the applications is presented to a Transport Authority not having jurisdiction;
- (b) that the form of the application has not been correctly filled in; and
- (c) that the prescribed fee has been omitted to be paid.

(2) In every such case, the Transport Authority shall return the application for presentation to the Transport Authority concerned or for rectification of the defects, informing the applicant of the correct procedure and giving him not more than seven days from the date of receipt of the communication to comply with such direction.

**174. Permit-Replacement of vehicles.**- (1) If the holder of a permit desires at any time to replace a vehicle covered by the permit with another vehicle, he shall forward the permit and apply in Form "P.V.A." with the fee prescribed in Rule 180 to the Transport Authority which granted the permit stating the reasons for the proposed replacement and shall,

- (a) if the new vehicle is not in his possession, state the material particulars in respect of which the new vehicle differs from the old; and
- (b) if the new vehicle is in his possession, forward the certificate of registration hereof.

(2) Upon receipt of the application, the Transport Authority may in his discretion, reject the application-

- (a) if it has previous to the date of receipt of the application given reasonable notice of its intention to reduce the number of Transport Vehicles of that class generally or in respect of the route or area to which the permit applies; or
- (b) if the new vehicle proposed differs in material respects from the old; or
- (c) if the new vehicle proposed is older than the one sought to be replaced; or]
- (d) if the holder of the permit has contravened the provisions thereof or has been deprived of possession of the old vehicle under the provisions of any agreement of hire purchase, hypothecation or lease.

(3) if the new vehicle proposed does not differ in material respects from the old, the application for replacement of the vehicle may be allowed. If there is material difference between the two vehicles, he application shall be treated as if it were for a fresh permit.

**Note.**- For the purpose of this rule vehicles which differ by not more than 25 percent of the Gross Vehicle Weight or seating capacity, as the case may be, shall not be considered as materially different.

[No replacement shall be allowed to a vehicle with material difference for a second time even if the material difference is less than 25 per cent and such an application shall be treated as if it is for a fresh permit.]

(4) If the Transport Authority grants an application for the replacement of the vehicle it shall call upon the holder of the permit to produce the certificate of registration of the new vehicle if not previously delivered to it and shall make necessary entries in this regard in the permit under its seal and signature and return them to the holder.

**175. Permit holder-Change of address-Intimation.**- If the holder of a permit changes his address as set forth in the permit, he shall within fourteen days intimate the details and forward the permit to the Transport Authority by which the permit was issued.

**176. Entry of new address in the permit.**- Upon receipt of intimation under Rule 175, the Transport Authority shall, after making such enquiries as the authority deems fit and after the changed address is recorded in the certificate of registration, enter in the permit the new address and shall intimate the particulars to the Authority of any region in which the permit is valid by virtue of endorsement or extension of validity of the permit.

**177. Alteration to Motor Vehicles.**- (1) Report regarding.-Further to the provisions of sub-section (4) of Section 52 of the Act, the owner of a Transport vehicle shall, at the same time as the report required therein is made to the Registering Authority, forward a copy thereof to the Transport Authority by which the permit relating to the vehicle was granted.

(2) *Variation or invalidation of permit.*- Upon receipt of a report under sub-rule (1), the Transport Authority by which the permit was issued, may, if the alteration is such as to contravene any of the provisions of the conditions of the permit-

- (a) vary the permit accordingly; or
- (b) require the permit holder to produce a substitute vehicle within such period as the authority may specify, and if the holder fails to comply with such requirement, cancel or suspend the permit.

**178. Permit-Transfer of.**- (1) When the holder of a permit desires to transfer the permit to some other person under sub-section (1) of Section 82 of the Act he shall, together with the person to whom he desires to make the transfer, make a joint application in writing to the Transport Authority by which the permit was issued setting forth the reasons for the proposed transfer. The fee for transfer of permit shall be the same as prescribed for the grant or renewal of permits under Rule 164.

(2) On receipt of an application under sub-rule (1) the Transport Authority may require the holder of the permit and the other party to state in writing whether any premium, payment or other consideration arising out of the transfer is to pass or has passed between them and the nature and amount of any such premium, payment or other consideration.

(3) Without prejudice to any other penalty to which the parties may be liable, any transfer of a permit ordered upon an application which to Transport Authority is subsequently satisfied as false in respect of the matter specified in sub-rule (2) or in respect of any other material particular shall be void. What is a material particular for purposes of this sub-rule shall be decided by the Transport Authority in its discretion.

(4) The Transport Authority may summon both the parties to the application for the transfer of a permit to appear before it and may, if it deems fit, deal with the application as if it were an application for a permit.

(5) (a) If the Transport Authority is satisfied that the transfer of a permit may properly be made it shall call upon the holder of the permit in writing to surrender the permit within seven days of the receipt of the order:

Provided that a stage carriage permit for a route of 50 kms. or less held by an individual is transferrable only to an individual.

(b) Upon receipt of the permit, the transport authority shall cancel the particulars of the holder thereon and endorse particulars of the transferee and shall return the permit to the transferee.

(c) If a permit has been endorsed or extended under the provisions of these rules, the endorsement or extension shall cease to have effect on the date of transfer of the permit unless the Transport Authority which granted the endorsement or extension directs that it shall be continued.

(d) The fee for application for continuance of endorsement and of extension of validity of permit shall be the same as prescribed for endorsement or extension of validity of permits.

(6) A fee of '(hundred rupees) shall be charged for the transfer of a permit on the death of the holder under sub-section (2) of Section 82 of the Act.

(b) If in such case, permit has been endorsed or extended under the provisions of these rules, the endorsement or extension shall cease to have effect on the date of transfer unless the Transport Authority which granted the endorsement or extension directs that it shall be continued.

(7) Before ordering transfer under this rule, the Transport Authority shall make such enquiry as it may consider necessary to satisfy itself that the transfer is bona fide. If after the enquiry the Transport Authority finds that the transfer asked for is not bona fide, it shall not order the transfer.

The maximum distance of each such stage shall not ordinarily exceed six kilometres and five hundred metres. When stages are so fixed, fare shall be collected according to stages:

Provided that this rule shall not apply to vehicles of State Transport Undertaking.

**Explanation.-** When a passenger gets into or gets down from a stage carriage at a place lying in between two stages, fare shall be collected from him from the stage preceding the place from where he gets into the bus to the stage succeeding the place where he gets down.

**212. Schedule of timings.-** (1) The State or Regional Transport Authority may from time  
(a) by a general order prescribe a schedule of timings for stage carriages other than those belonging to State Transport Undertakings running on specified routes, or  
(b) by a special order prescribe a schedule of timings for each stage carriage other than that belonging to State Transport Undertaking.

(2) The changes ordered by the Transport Authority in the timings of a service shall not be considered as variation of permit under sub-section (3) of Section 80 of the Act.

(3) The State Transport Authority or the Regional Transport authority may, by resolution, delegate to its Secretary the powers conferred on it under this rule subject to any conditions that it may prescribe:

Provided that the State or Regional Transport Authority shall not however vary the timings of a service without giving to the interested permit holders an opportunity to represent their case.

**213. Vehicles to run in accordance with schedule.**- When a schedule of timings has been prescribed under Rule 212 every stage carriage on such route shall run in accordance with it, except-

- (a) when prevented by accident or other unavoidable cause, or
- (b) when otherwise authorised in writing by the Authority granting the permit or the State Transport Authority.

**214. Interchangeability of timings of stage carriage.**- When a permit holder has more than one vehicle plying exclusively on the same route, he may, notwithstanding that a schedule of timings has been fixed for each vehicle, use temporarily, and in any case for not more than ten days at any one time any one of the other vehicles to maintain all or any of the timings fixed for a particular vehicle on the route:

Provided that-

- (a) intimation thereof is sent to the Authority which granted the permit and to the Authority, if any, which has endorsed or extended the permit, within seven days of such use, and
- (b) the schedule of timings granted to the other vehicles of the permit holder on the route are not affected.

**215. Failure to perform service-Report to be made.**- If at any time a stage carriage is prevented from running in accordance with the schedule prescribed or, where no schedule is prescribed, is prevented from performing the service for which a permit has been granted, the holder of the permit shall forthwith report the fact and reason therefor to the Authority which granted the permit and the Authority, if any, which has countersigned the permit:

Provided that no report need be sent when the difference between the time of actual arrival of a stage carriage plying on mofussil routes and the schedule time of its arrival is not more than five minutes in the case of routes less than sixteen kilometres in length and ten minutes in other cases.

**216. Responsibility of permit holder.**- The holder of the permit as well as any other person responsible shall be liable to be punished for a breach of Rule 213.

**217. Withdrawal of bus from service.**- If the holder of a stage carriage permit proposes to withdraw before the expiry of the permit the services which the vehicle covered by the permit is providing, he shall, unless prevented by unavoidable circumstances, give at least one month's notice of his intention to the Transport Authority which issued the permit, and shall surrender the permit on the date from which the services are withdrawn. Upon receipt of the notice, the Transport Authority Shall post a copy of the notice on the notice board of the Authority.

(2) Type of body, material and roof.- Every autorickshaw shall have a body either of a station wagon or box type or hackney carriage type, soundly constructed to the satisfaction of the registering authority and shall be securely fastened to the frame of the vehicle. The body shall be of metal type construction. The sections used shall be of suitable gauge to withstand all strains and stresses and shall be of light weight. There shall be adequate arrangements for protection of passengers from sun, wind and rain. The materials used in the construction shall be strong and of good quality.

The roof shall be so constructed as to provide protection for passengers from sun and rain and shall be either of metal sheeting or canvas or some other suitable material. If all metal roof construction is used, due care shall be taken to insulate the roof against heat.

The right side should either be blocked by a fixed door upto the waist level of the passenger in seated position or provided with two chromium plated rods one below the other leaving a gap of twenty five centimetres in between and the lower one being at the level of the hip of the passenger and that both rods are welded to the frame at both ends.

(3) Driver's Seat.- The back of the driver's seat of an autorickshaw shall have at least ten centimetres of clearance from the front panel of the body.

(4) Wind screen.- A wind screen with wind screen wiper shall be provided in every autorickshaw.

(5) Floor board.- The floor board of an autorickshaw shall be not more than fifty six centimetres above the surface on which the vehicle stands.

(6) Road clearance,-The road clearance of every authorickshaw shall be not more than twenty centimetres and not less than ten centimetres:

Provided that in the case of a motorised cycle rickshaw the road clearance shall be not more than twenty-five centimetres,

(7) Tuning circle of autorickshaw.- Every autorickshaw shall be so constructed or the movement of the handle bar so locked as not to be capable of turning in either direction in a circle of not less than 7 metres in diameter.

## PART VII

### SPECIAL RULES APPLICABLE TO EVERY GOODS CARRIAGE

**302. Body and loading platform.**- Every goods vehicle including a trailer shall be equipped with strong platform or body so constructed as to be capable of carrying the load for which it is used without danger to other road users and be such that the load can be securely packed within or fastened to the body or platform.

**303. Seating room in the cab of a goods vehicle.**- (1) Driver's Seat.-Save when specifically exempted by the State Transport Authority in the case of a vehicle with left-hand steering control, Rules 273 and 278 relating to the driver's seat shall, as far as may be, apply to every goods vehicle other than a light motor vehicle.

(2) For other persons.-As many persons as there is seating accommodation for at the rate of thirty-eight centimetres for each person measured along the seat excluding the space reserved to the driver may be permitted to be carried in the cab of a goods carriage.

**304. Painting.**- Every goods vehicle shall be painted in highway yellow colour either fully or in front and rear portion in highway yellow colour:

[Provided that the body of a goods carriage used to carry dangerous or hazardous goods shall be painted in white colour with a dry brown leaf ribbon of 5 c.m. width around in the middle at the exterior, and that the driver's cabin in orange colour:

Provided also that this rule shall not apply to goods vehicles covered by National Permits, Composite Permits and goods vehicles belonging to the Police Department and the goods vehicles temporarily registered under Section 43 of the Actl.

## PART VIII

### SPECIAL RULES APPLICABLE TO TRAILERS

**305. Checking of designs of locally manufactured trailers.**- (1) An application for the approval of a new design of a trailer manufactured locally shall be made in triplicate to the State Transport Authority by the manufacturer or his authorised assembler. Such application shall be accompanied by the fee prescribed in sub-rule (8) and three copies of each of the following documents, namely:

- (i) Full specifications;
- (ii) Drawing giving all dimensions and details; and
- (iii) Set of design calculations of,-
  - (a) Axles;
  - (b) Springs;
  - (c) Long bearers;
  - (d) Cross bearers;
  - (e) Platform tank, or anything that may be carried on the cross bearers;
  - (f) Tow bar and coupling arrangements;
  - (g) Turn-table or any other scribbling device for the front axle, in the case of two axle trailers;
  - (h) Breaking arrangements, if any;
  - (i) Pay load capacity of the trailers;
  - (j) Suspension arrangements of the trailer over the axle;

- (k) Turning circle required for the trailers;
- (l) Sizes and types of tyres recommended for the trailer; and
- (m) Any other item such as shock absorbers, if included.

(2) The State Transport Authority shall forward the application together with the accompanying Documents to the General Manager, Kerala State Road Transport Corporation, who shall cause an Apert scrutiny of the design and calculations and if the design is found satisfactory, certify what woudid be in his opinion the maximum laden and axle weights of the trailers which are compatible with reasonable safety.

(3) In case the design is not found satisfactory the General Manager, Kerala State Road transport Corporation shall advise the State Transport Authority to that effect and recommend di changes in he design and construction, as may be required to make the trailer suitable for the designed load.

(4) The State Transport Authority either on its own motion or on the recommendation of the General Manager, Kerala State Road Transport Corporation under sub-rule (3) may call upon the applicant to carry out such changes in the design as may be specified and to furnish such further details as may be required by that Authority. In such cases the applicant shall furnish such further specifications and drawing, incorporating alterations, if any.

(5) When the design is found satisfactory, the General Manager, Kerala State Road Transport Corporation shall forward to the State Transport Authority two copies of the approved design, specifications and calculations together with his recommendations as to the maximum laden and weights compatible with reasonable safety. The State Transport Authority may then approve the design and inform the applicant the maximum laden weight and axle weight recommended by the General Manager, Kerala State Road Transport Corporation. Such approval shall be subject to the condition that the manufacturer's or his assembler's recommendation regarding the maximum laden and axle weights shall not exceed those recommended by the General Manager, Kerala State Road Transport Corporation.

(6) The approval given under sub-rule (5) by the State Transport Authority shall be subject to the condition that when such trailer is attached to any motor vehicle, the overall dimensions of such combinations shall not exceed the limits prescribed by the Central Government.

(7) The applicant shall supply to the State Transport Authority as many extra copies of the approved design, specifications and calculations as may be required by that Authority for the purpose of distribution to the different registering authorities for their record.

(8) The fee for the approval of the new design of a trailer manufactured in India shall be rupees three hundred which shall not be refundable.

(9) Notwithstanding anything contrary contained in these rules, a trailer built up in another State and approved for this purpose by the prescribed authority of that State shall be deemed to have been approved by the State Transport Authority of this State under this rule.

## PART IX

### SPECIAL RULES APPLICABLE TO GAS PRODUCERS INSTALLED IN MOTOR VEHICLES OTHER THAN MOTOR CARS AND MOTOR CYCLES

**306. Definition.-** For the purposes of the rules in this part, the term "producer" means and includes the whole of the equipment necessary for the generation of producer gas and its utilisation in the engine of a motor vehicle other than a motor car or motor cab.

**307. Regulation of use of producers.**- (1) Every producer fitted to a motor vehicle shall be of a model approved by the State Transport Authority and made by a manufacturer approved by such Authority. It shall not be necessary to obtain such approval in the case of any producer which has already been approved by a competent authority in Tamilnadu State. Every producer shall exhibit in a conspicuous place on the generator a plate showing, in addition to the manufacturer's name and serial number, the mark assigned to the model by the State Transport Authority.

(2) *Approval of models.*- (a) Every manufacturer seeking approval for a producer shall submit in duplicate to the State Transport Authority, specifications and drawings (which should be blue prints or photostat copies) of the model he proposes to manufacture, together with a copy of the instructions for operating the producer. The thickness of the metal sheets used in the construction of the various parts of the producer shall be stated in the specifications.

He shall also give an undertaking in writing to submit a producer of that model to a laboratory test and also to produce a stage carriage or goods vehicle fitted with a producer of that model at such time and place and for such tests including a road test of not less than one hundred kilometres continuous run as may be determined by the State Transport Authority or by such officer as that Authority may depute in this behalf. No modification shall be made in an approved model except with the approval of the State Transport Authority. Such Authority may subject the model as modified to such test as it thinks necessary before approving the modification.

(b) Every manufacturer of a producer of an approved model shall if so required by the State Transport Authority or an officer empowered by it in its behalf, at any time after approval has been accorded to the model produce for a laboratory test at the Engineering College, Trivandrum a producer manufactured according to such approved model.

(c) The State Transport Authority may withdraw the approval accorded to a model if it is of opinion that by reason of deterioration in the standard of manufacture or the efficiency of the plant or defects subsequently discovered the model no longer satisfied the provisions of these rules.

(3) *Validation of other approved models.*- Notwithstanding anything contained in sub-rule (2), the State Transport Authority may declare as approved any model of producer approved by any competent authority in the States of India if such authority has prescribed specifications for producers, similar to those laid down in these rules.

**308. Specifications-General.**- A producer model shall not be approved unless it satisfies the provisions of these rules and is fitted accordingly.

**309. Materials of construction.**- (1) All materials used in the construction of the producer except any component part or parts thereof which may be expressly excluded from his guarantee by the manufacturer, shall be suited to the load of the vehicle in which it may be installed and capable of withstanding the temperature, chemical and other strains of working under reasonable conditions of operation and maintenance for not less than two years. A statement of material and component part or parts which may not withstand wear and tear for two years shall be furnished to the State Transport Authority by the manufacturer.

(2) Thickness of mild steel sheets used for the generator shall be not less than 16 gauge (1.7 millimetres). The thickness for the hot portions of the gas pipe lines, cooler and the filter casings shall be not less than 18 gauge (1.2 millimetres). The thickness of the portion of the gas pipe lines after the filters shall not be less than 20 gauge (0.9 millimetres). The thickness of the sheet for cooling water tanks shall be not less than 20 gauge (0.9 millimetres).

**310. Design-General.**- The producer shall be of simple design and construction and shall be capable of being installed in a vehicle in such manner as-

- (a) not to interfere with the steering and road safety of the vehicle or with the driver's range of vision including his view to the rear through the driving mirror or with any signals or signaling devices required, under the provisions of Act and these rules; and
- (b) not unduly to impair the pay loadspace and the weight distribution of the vehicle.

**311. Weight.**- The weight of the producer shall be a minimum having regard to the requirements of strength, rigidity, resistance to high temperature and corrosion and to the type of vehicle to which it is to be fitted.

**312. Hopper capacity.**- The effective capacity of the fuel hopper shall give the vehicle an operating distance of not less than 80 kilometres and 500 metres without recharging.

**313. Accessibility.**- The producer shall be designed with a view to accessibility and ease of maintenance, cleaning, charging and ash removal. Provision for drainage shall be made wherever necessary.

**314. Fitting.**- All installations connected with the producer shall be securely fixed. The installation shall not form a single inflexible unit but shall be connected with flexible couplings at appropriate points to relieve intermediate stresses. No rubber hose shall ordinarily be used as a flexible connection between the generator and the cooler.

**315. Safety.**- (1) The manufacturer shall take precautions in the manufacture of the producers to ensure safety with special regard to risk from fire, gas poisoning and blow-back of hot charcoal.

(2) All equipments and pipings shall be free from gas or air leaks. Covers of the furnace and gas filters and cocks and packings shall be airtight. If a generator vent pipe is fitted, the pipe shall be connected directly to the furnace or shall branch from a pipe as near as possible to the furnace. If an escape funnel is provided for use during the air blowing operation, the pipe shall exhaust above the roof level.

A suitable valve or flame trap shall be fitted to the air inlet of all types of generator to prevent danger from blow-back.

- (3) Exposed surfaces at high temperatures shall be screened against accidental contact.
- (4) The compartment containing the generator shall be lined with asbestos or other heat-resisting material not less than six millimetres thick.

The joints in the heat resisting material shall be overlapped, not less than four centimetres or butted with a covering but-strap four centimetres wide and six millimetres thick. Where the generator is not recessed the heat resisting materials shall be provided on the rear side for a distance of not less than fifteen centimetres on either side of the generator.

(5) In the instructions issued by the manufacturers to purchasers of producers regarding the use of the producer, instructions shall be included to the effect that the garage and buildings in which producer gas vehicles may be housed shall have permanent ventilation in addition to doors and windows that may be opened.

**316. Capacity of cleaners.-** The generator and the cleaning system shall be so designed that they will operate for not less than eighty kilometres and five hundred metres without requiring attention or cleaning.

**317. Piping.-** All piping shall be of substantial and gas-tight construction and provided with such joints as are necessary for the effective maintenance and repair of the vehicle. Every joint or weld shall be strong.

**318. Painting.-** All parts of a producer except those exposed to high temperatures shall be suitably painted, and parts exposed to high temperatures shall be painted with satisfactory heat resisting paints.

**319. Lay out.-** The whole of the producer shall be installed either outside or underneath the body of a vehicle. If the construction of the body of the vehicle, is such that some part of the producer should be inside the body of the vehicle, such part shall be covered so as to prevent any ill effect from gas leakage or inconvenience due to excessive heat.

**320. Location of the generator.-** In the case of stage carriage, the generator of the producer shall be located at the rear in such a position as to cause as little interference as possible with the weight distribution. In the case of a goods vehicle, the generator of the producer may be located, either at the rear as prescribed for stage carriages or at the front. If the generator is located at the front, it shall be fitted behind the driver's cab in such a position as not to interfere with visibility or signalling. The generator shall be kept away from any part of the body by at least five centimetres.

**321. Location of the fuel tank.-** If the generator of the producer is fitted at the front of the vehicle-

- (a) the main fuel tank shall be located away from the generator as far as practicable; if the tank is located inside the body of the vehicle it shall be effectively insulated;
- (b) the filling spout and any other opening shall be located on the opposite side of the vehicle to the generator and not less than 122 centimetres away from the generator; and
- (c) where an auxiliary fuel tank with gravity feed is fitted the capacity of such tank shall not exceed four and half litres and it shall be located in the front portion of the vehicle as far away from the generator as practicable.

**322. Dimensions,-** The overall dimensions of the vehicle, with the producer installed, shall not exceed those permitted.

**323. Cleaners-Installation.-** Cleaners using solid filter material shall be installed on the vehicle in such a manner as to allow efficient and convenient packing of the filter material.

**324. Clearance.-** The road clearance at the bottom of the furnace shall be not less than thirty centimetres and five millimetres when the vehicle is unladen with the hopper full. The height of any part of the producer within the wheel base shall not be less than twenty-five centimetres and five millimetres from the road level,

**325. Performance-Starting test.-** After the commencement of the starting process, the time taken for the engine of the vehicle to idle satisfactorily on gas alone shall not be greater than five minutes using petrol or fifteen minutes without petrol. For the purpose of this test, the engine and the producer shall be cold at the beginning of the process.

**326. Inspection.-** When a new vehicle or a vehicle which has already been registered, is fitted with a producer, it shall be inspected to see that it conforms to the specifications and shall be subjected to a road test of not less than forty kilometres including the testing for starting time, as laid down in Rule 327.

**327. Petrol - Carrying of.-** No driver or other person in charge of a motor vehicle to which a producer is fitted shall-

- (i) at any time when there is fire in the generator, or petrol or cause or allow petrol to be poured into the petrol tank; or
- (ii) carry or cause or allow to be carried in the vehicle (save in the regular petrol tank thereof) any petrol or other inflammable or explosive substance.

**328. General provision.-** All producers shall be of such construction and so fitted as to provide adequate protection against danger or damage or injury arising from fire, gas poisoning or contact with exposed surface at high temperature.

#### PART X

#### SPECIAL RULES APPLICABLE TO GAS PRODUCERS INSTALLED IN MOTOR CARS OR MOTOR CABS

**329. Definition.-** For the purposes of the rules in this Part, the term "Producer" means and includes the whole of the equipment necessary for the generation of the producer gas and its utilisation in the engine of a motor car or a motor cab.

**330. Installation and inspection.-** *Installation on vehicles.*- In the case of every motor car or motor cab fitted with a producer,-

- (a) the generator shall be installed outside in the rear, or inside the luggage compartment;
- (b) the compartment containing the generator shall be lined with asbestos or other heat resisting material not less than 6 millimetres thick. If the generator is fitted outside in the rear, a suitable partition of asbestos or other heat resisting material not less than 3 millimetres thick shall be provided and this partition shall be placed -
  - (i) between any hot part of the generator and any painted surface within thirty centimetres and five millimetres of it, and
  - (ii) between the petrol tank and any part of the generator within thirty centimetres and five millimetres;
- (c) the generator shall be kept away from any part of the body by at least five centimetres;
- (d) exposed surfaces at high temperatures shall be screened against accidental contact;
- (e) the main petrol tank shall not be used unless the filling spout is on the opposite side from the air inlet opening of the generator;
- (f) the road clearance at the bottom of the furnace shall not be less than 23 centimetres when the vehicle is unladen with the hopper full; and
- (g) the producer shall be of such construction and so fitted as to provide adequate protection against fire, gas poisoning or contact with exposed surface at high temperature.

(2) **Inspection of vehicles.**- When a motor car which has already been registered is fitted with a producer, which shall invariably be inspected and tested before the alteration is recorded in the certificate of registration under Section 52 of the Act.

**331. Approved list of models.**- (1) The State Transport Authority shall maintain an approved list of producers suitable for fitment to motor cars and motor cabs. The list shall be published in the Gazette. No person shall, however, be precluded from fitting to a motor car or motor cab any producer not included in the said list.

(2) *Requirements for approval.*- The State Transport Authority shall not approve any model of producer for motor cars or motor cabs unless it satisfies the following requirements:

- (a) the thickness of the mild steel sheets used for the generator should be not less than 16 gauge, the thickness for hot portions of the gas pipe lines, cooler and the filter castings should be not less than 18 gauge and the thickness of the portion of the gas pipe line after the filters should be not less than 20 gauge;
- (b) the effective capacity of the fuel hopper should give the vehicle on which it is designed to be fitted an operating distance of not less than sixty-four kilometres and five hundred metres without re-charging;
- (c) the generator and the cleaning system should be so designed that they will operate for not less than sixty-four kilometres and five hundred metres without requiring attention or cleaning;
- (d) the design of the producer should ensure safety with regard to risk from fire, gas poisoning and blow-back of hot charcoal;
- (e) cleaners using solid filter material should be installed on the vehicle in such a manner as to allow efficient and convenient packing of the filter material;
- (f) the producer shall be capable of moving the vehicle on which it is designed to be fitted on gas alone in not more than fifteen minutes from the commencement of the starting process;
- (g) the producer should be capable of maintaining the vehicle on which it is designed to be fitted, on gas alone at speed of forty-eight kilometres and five hundred metres per hour when running on level roads;
- (h) the dust content as tested in the laboratory of the Engineering College, Trivandrum should not exceed 0.005 grams per cubic meter of gas and the maximum drop of pressure in the producer during that test should not exceed ten centimetres of mercury.

## PART XI

### SPECIAL RULES APPLICABLE TO TOURIST MOTOR CABS

**332. Seats.**- The seats shall be provided with foam rubber at least to a minimum thickness of 18 millimetres cushioning or with deluxe cushion supplied by the car manufacturers.

**333. Fitting taxi-meter '[x xx x]-Exemption.**- The provisions of Rules 295 and 296 of these rules shall not apply to the vehicles covered by tourist permits. These vehicles shall not also use public taxi stands.

## PART XII

**334. Exemption by Government.**- Government may for good and sufficient reasons exempt to such extent as they deem necessary any motor vehicle or class of motor vehicles from all of any of the provisions of the rules in this chapter;

Provided that every application for exemption under this rule shall be accompanied by a fee of rupees two hundred.

## CHAPTER VIII CONTROL OF TRAFFIC

**335. Powers of Transport Authority to restrict speed, weight, etc.**- The State Transport Authority and the Regional Transport Authority shall have the power,-

- (a) to impose speed limits including the minimum speed;
- (b) to impose limits on the laden weight or axle weight (or dimensions of other matters connected with the construction or design) of motor vehicles and to prohibit or restrict the use of motor vehicles generally or of a particular class or of trailers in a specified area or in respect of any road; and
- (c) to designate any road as a main road:

Provided that the power conferred on the Regional Transport Authority by subject to the control of the State Transport Authority:

Provided further that any limit or restriction under clause (b) shall be imposed by the Regional Transport Authority only with the specific concurrence of the State Transport Authority, and if so required by Government or the State Transport Authority, after prior consultation with one or more representatives of the motor trade or trade associations.

**336. Use of Heavy/Motor Vehicles.**- (1) *Restrictions of roads or areas regarding.*- Government or the State Transport Authority may in consultation with the Public Works Department and such other Local Authority as is deemed necessary, approve a list of roads or areas in the State fit for operation by heavy goods vehicles or heavy passenger motor vehicles.

(2) Issue of permits for.- The State or any Regional Transport Authority shall not issue a permit for regular operation of any heavy goods vehicles or heavy passenger vehicles on any road or area, which is not included in the list referred to in sub-rule (1):

Provided that the above restriction shall not apply in the case of temporary permits issued by any Transport Authority for a limited number of trips on any road or area, not prohibited under Section 115 of the Act:

Provided further that temporary permits may be issued by any Transport Authority on any road or area prohibited under Section 115 of the Act on specific sanction from the Government, or in the case of vehicles engaged for public works on the recommendations of the Executive Engineer of the Roads, subject to such restrictions and conditions as may be imposed by the Transport Authority.

**336A. Restrictions in time of transporting dangerous or hazardous goods.**- Movement of bullet trucks transporting bulk load of Liquified Petroleum Gas shall be restricted during peak traffic hours from 8 a.m. to 11 a.m. and 4 p.m. To 6 p.m. in Corporation and Municipal limits:

Provided that the Regional Transport Authority of the region shall impose suitable local time restrictions for goods carriages transporting dangerous or hazardous goods according to local requirements for ensuring road safety, free flow of traffic and movement of vehicles.]

**337. Restrictions on use of truck-trailer combinations.-** (1) A truck-trailer combination shall not be used-

- (a) on ghat roads;
- (b) on roads of less than six metres and seventy centimetres width generally, except for small stretches of road with not less than three metres and sixty-five centimetres carriages way and few narrow bridges.

**338. Restriction on use of Tractor Semi-Trailer combinations.-** (1) A tractor-semi-trailer combination shall not be used-

- (a) on ghat roads where trucks are not permitted to ply;
- (b) on roads with single lane carriage way of less than three metres and sixty-five centimetres width;
- (c) on narrow roads of not less than three metres and sixty-five centimetres width unless equipped with turn table arrangement and the turning radius is not more than twenty-one metres and thirty-five centimetres.

**339. Authority to restrict the use of motor vehicles.** - Authority shall be competent to prohibit or restrict the use of motor vehicles under the provisions of Section 115 of the Act provided that in the case of any prohibition or restriction deemed necessary solely due to the deteriorated condition of any road or bridge, any officer of the Public Works Department not below the rank of an Executive Engineer who is in charge of such road or bridge shall be competent to impose the prohibition or restriction.

**340. Weighing of vehicles-Officers competent.-** Police officers in uniform not below the rank of Sub Inspector, officers of the Motor Vehicles Department not below the rank of Assistant Motor Vehicles Inspector are authorised to require the weighing of goods vehicles and trailers.

**341. Weighing devices- Use and installation.-** A weighing device for the purpose of Section 114 of the Act may be-

- (a) a weigh bridge installed and maintained at any place by or under the orders of Government or a Local Authority; or
- (b) a weigh bridge installed and maintained by any person and certified by the registering authority to be a weighing device for the purpose of the Act and these
- (c) a portable wheel-weigher of any kind approved by Government:

Provided that when the weight or axle weight of a motor vehicle is determined by separate and independent determination of the weight transmitted by any wheel or wheels of the vehicle, the axle weight and the laden weight of the vehicle shall be deemed to be the sum of the weights transmitted by the wheels of any axle or by all the wheels of the vehicle, as the case may be.

**342. Authorities empowered to erect traffic signs.-** (1) Save as otherwise provided for in sub-rule (2), and subject to the general instructions of the Regional Transport Authority, the Secretary of the Authority shall be competent to cause or permit traffic signs to be placed or erected in any public place for the purpose of regulating motor vehicle traffic.

(2) Any authority empowered, under any law for the time being in force relating to local bodies such as a Corporation, a Municipality, or a Panchayat, to specify the maximum safe load for a bridge or a culvert, or to close a public road or street may for the purpose of exercising the said power, elect the appropriate traffic signs.

**343. Authority to add transcriptions to traffic signs.**- The authorities empowered to erect traffic signs shall be competent to add thereon transcriptions of the words, letters or figures as referred to in sub-section (2) of Section 116 of the Act.

**344. Bus stand and parking places.**- (1) *Authority to determine location of.*- The Regional Transport Authority shall, in consultation with the concerned authorities of any Corporation, Municipality or Panchayat, the Executive Engineer and the Superintendent of Police of the District, determine the location of-

- (a) bus stands, where from stage carriages start or terminate service; and
- (b) parking places wherein motor vehicles in general or of specified description may stand either indefinitely or for a specified period of time:

Provided that in the case of vehicles of the Kerala State Road Transport Corporation, the District Transport Officer or the Assistant Transport Officer may, in consultation with the local authority concerned, fix up stands at the starting points and at the termini of the bus routes and also bus stands and stopping places in the course of the route subject to the following conditions:

- (i) The District Transport Officer or the Assistant Transport Officer, as the case may be, shall consult the local authority concerned before determining the starting points, termini and the bus stops and bus stands within the limits of the local authority;
- (ii) In case of any difference of opinion between the local authority and the concerned officer of the Corporation the matter shall be referred to the District Collector concerned;
- (iii) The District Collector, after giving an opportunity of being heard to the officers of the Corporation and the local authority concerned, shall determine the issue and the decision of the District Collector shall be final.

(2) *Construction of.*- Government or subject to the previous approval of Government, any Corporation, Municipality or Panchayat may construct-

- (a) waiting sheds at bus stands for protection of stage carriages from weather during the period when they are at the bus stand before the commencement of any journey and for the convenience of the passengers, including public comfort stations; and
- (b) parking places wherein provisions may be made for the accommodation of motor vehicle generally or of a specified class with or without protection from weather.

(3) *Maintenance of.*-Government or other authority constructing waiting sheds at bus stands, or parking places shall arrange for their maintenance and also for the regulation and safe custody of vehicles garaged therein.

(4) *Rules regarding.*- Government may lay down regulations regarding any or all matters including the levy of waiting charges on motor vehicles using the bus stands or parking places.

**345. Removal and custody of vehicles-Abandoned.**- (1) *To remove obstruction.*-If any motor vehicle is allowed to stand in any place other than a duly appointed parking place in such a way as to cause obstruction to traffic or danger to any person, any police officer may-

- (a) forthwith cause the vehicle to be moved under its own power or otherwise to the nearest place where the vehicle will not cause undue obstruction or danger;
- (b) unless it is moved to a position where it will not cause obstruction or danger take all reasonable precautions to indicate the presence of the vehicle; and
- (c) if the vehicle has been stationary in one place for a continuous period of twenty-four hours and adequate steps have not been taken for its repair or removal by the owner or his representative remove the vehicle and its contents to a place of safe custody.

(2) *After an air raid.*- If after the "Raiders Passed" signal has been sounded after an air raid, a motor vehicle remains in any public place without a driver or other person in charge, and a police officer has reason to believe either that the driver or other person in charge has been killed or wounded during the air raid, or that the vehicle is in danger of being damaged by pilferes or otherwise by reason of the absence of the driver or other person in charge, the police officer may take charge of the vehicle and for that purpose he may remove the vehicle or cause it to be removed under its own power or otherwise, to any place of safe custody.

(3) *From parking place.*- If a motor vehicle has been stationary in a duly appointed parking place for a period exceeding that specified by the competent authority in respect of the said place or, if no such period has been specified, for a period exceeding six hours, any police officer may remove the vehicle to a place safe custody.

(4) *Payment for.*- Notwithstanding any fine or penalty which may be imposed upon any person upon conviction for the contravention of the provisions of Section 122 of the Act or of any regulations made by a competent authority in relation to the use of duly appointed parking places, the owner of the motor vehicle or his heirs or assignees shall be liable to make good any expense incurred by any police officer in accordance with this rule and any police officer or any person into whose custody the vehicle has been entrusted by any Police Officer, shall be entitled to detain the vehicle until has received payment accordingly and shall, upon receiving such payment, give a receipt to the person making the payment.

**346. Prohibition in the case of moving vehicle.**-(1) *From mounting or dismounting.*- No person shall mount or attempt to mount on, or dismount from, any motor vehicle, when the motor vehicle is in motion, nor shall the driver or person in charge of such vehicle permit any person to do so,

(2) *From taking hold of.*-No person shall take hold of, and no driver of a motor vehicle shall cause or allow any person to take hold of any motor vehicle when in motion for the purpose of being towed or drawn upon some other wheeled vehicle or otherwise.

**347. Protective head gear.**- The head gear to be worn by any person driving or riding on, a motor cycle shall be of the ISI standards.

**347A. Exemption from wearing of protective headgear.**- Any person riding on a motor cycle than the driver thereof, need not wear a protective headgear.]

**348. Production of certificate of registration and fitness on demand.**- Magistrates, Ofécers of the Motor Vehicles Department not below the rank of Assistant Motor Vehicles Inspector, and Police Officers in uniform not below the rank of Sub Inspector are authorised to demand the production of the certificate of registration and the certificate of insurance of any vehicle and where the vehicle is a transport vehicle, also the certificate of fitness and the permit.

**349. Production of driving licence-Exemption from.**-The drivers of fire brigade vehicles bolonging to the Kerala Fire Service Department shall be exempt from the provisions of Section 130 of the Act provided that they are in uniform at the time of checking,

**350. Information regarding driver or conductor.**- *Liability of owner to furnish.*- No owner of a motor vehicle shall cause or allow any person to function as a driver or conductor, unless the owner has in his possession a record in writing of the name and address of the driver or conductor as set forth in his licence, the number of the licence and the name of the authority by which it was issued.

**351. Officers empowered to seize vehicles and documents.-** [(1)] Magistrates Police Officers in uniform not below the rank of Sub Inspector, officers of the Motor Vehicles Department not below the rank of Assistant Motor Vehicle Inspector are authorised to:

- (a) seize any identification mark carried on, or any document produced by the driver or person in charge of a motor vehicle under the provisions of Section 206 of the Act.
